

Tax Withholding Information

Federal Tax Withholding

You may elect not to have federal withholding apply, or you may elect to increase the rate of withholding. If left blank, IRS regulations require us to withhold federal income tax at a rate of 10% from your total nonRoth IRA distribution, even if you have made non-deductible contributions to your IRA. This may result in excess withholding of your distribution. Federal income tax will not be withheld from a distribution from a Roth IRA unless you elect to have such tax withheld
